**FUND DESCRIPTION**

The Vetiva Banking ETF "VETBANK ETF" is an open-ended Exchange Traded Fund managed by Vetiva Fund Managers Limited. The VETBANK ETF is designed to track the performance of the constituent companies of the NGX BANKING Index and to replicate the price and yield performance of the Index.

The NGX BANKING Index comprises of the top 10 banks listed on the Nigerian Exchange Group ("NGX") in terms of market capitalization and liquidity and is a price index weighted by adjusted market capitalization.

**MARKET REVIEW & OUTLOOK**

In December, the equity market closed the year in green with a gain of 4.78% month-on-month (m/m) extending its bullish run. The market activity was dominated by local investors in anticipation of FY'23 financials and final dividend declaration.

On a sectoral basis, the Banking Index was the best performing index with all the stocks in the index closing in the green on a month-on-month basis which translated to a 19.94% m/m gain.

Overall, the outlook for the banking sector remains positive, which is particularly supported by higher expected interest rates in Q1 2024 which should drive increased earnings for this sector. We also anticipate FY corporate releases to influence trading sentiment.
